

Digital Media Investigation

Overview

This one-day awareness course explores the capabilities of a DMI and how they can support other departments in all lines of investigation.

Who is this Course for?

This awareness course is designed for those who wish to understand what Digital Media Investigators can offer an investigation.

This includes:

- Senior Investigating Officers
- Investigators

No technical knowledge is required, however an element on investigation knowledge would be preferred.

Complimentary Courses

- Open Source & Social Media Intelligence (OSINT & SOCMINT – Two Days)
- Digital Forensic Crime Scenes (Half-Day)

1 DAY
TRAINING COURSE

Course Aims

1.

To provide an overview and explanation around the role of a Digital Media Investigator (DMI)

2.

How a DMI can improve the investigation and critical timings around evidential data loss

3.

Provides an overview of digital investigative strategies and how this can lead to traditional investigative enquiries

Carl Osborne

Head of Digital
Investigation Unit
